The Night Demon is the most feared of all corelings, a colossal creature with raven-black scales and glowing crimson eyes. It possesses incredible strength and speed, capable of shattering bones and rending flesh with a

single swipe of its claws. The mere presence of the Night Demon sends shivers down the spines of even the bravest warriors.

As the name suggests, the Night Demon is most active under the cover of darkness. Its supernatural senses allow it to navigate with ease in the blackest of nights, making it a formidable predator. Those who venture out at night risk becoming its unsuspecting victims, trapped in a deadly game of cat and mouse.

2. The Mud Demon

In stark contrast to the Night Demon, the Mud Demon is a creature of the earth. Its body is composed entirely of thick, oozing mud, resembling a grotesque mockery of the human form. Despite its seemingly sluggish appearance, the Mud Demon possesses a surprising degree of agility and stealth.

The Mud Demon's primary tactic is to bury itself beneath the ground, waiting patiently for its prey to pass by. When an unsuspecting victim stumbles too close, the Mud Demon erupts from the soil, enveloping its target in a suffocating embrace. Its acidic mud dissolves flesh and bone, leaving behind only a gruesome testament to its deadly presence.

3. The Smoke Demon

The Smoke Demon is an ethereal creature, its body a swirling vortex of dark, acrid smoke. It lacks a physical form, instead manifesting as a constantly shifting cloud of ash and embers. This makes it nearly

impossible to defend against, as it can seep through the smallest of cracks or crevices.

The Smoke Demon's primary weapon is its ability to induce hallucinations and sow discord. It whispers lies and nightmares into the minds of its victims, driving them to madness and turning them against one another. Those who fall prey to its insidious influence often meet a gruesome end, their minds shattered and their bodies consumed by the flames of internal chaos.

4. The Bone Demon

The Bone Demon is the most enigmatic of the corelings, its origins shrouded in mystery. Its body resembles a skeletal frame, but its bones are made of an unknown, unbreakable substance. Its eyes glow with an eerie blue light, and its voice is a bone-chilling rattle that sends shivers down the spine.

The Bone Demon possesses a macabre ability to manipulate the bones of its victims. It can shatter bones with a mere thought, or animate them to form a deadly entourage. It is also known to collect the bones of the dead, using them to create grotesque and unsettling bone sculptures that serve as grim reminders of its presence.

As the story unfolds, readers will encounter these demons time and

time again, their presence a constant threat that shapes the lives of characters and the fate of the world.
